Dear William Herp:

Interested in unearthing new ideas and unconventional solutions for the challenges facing your company? Here at the publishing arm of Harvard Business School, we've created an exciting new program that can show you how some leading companies use benchmarking -- studying and emulating top performers inside, and outside, their industries -- to eliminate long-standing problems and become top performers.

Discover how new practices can be applied to your organization -- with impressive and measurable results -- in Benchmarking, an innovative three-part video series. We'll take you deep inside profiled companies such as Mobil Oil, GTE, and SunHealth to learn how they identified "best of class" companies to benchmark in order to improve their own performance.

You'll see how benchmarking can give your team a common rallying point and motivate coordinated action. You'll learn how to identify processes to benchmark, how to find the right partner, and how to initiate the first steps (even on a limited budget). You'll find out how to identify novel opportunities, how to structure your efforts for success, even proper benchmarking etiquette. Each concept is clearly explained and illustrated to facilitate implementation.

Benchmarking for Continuous Improvement, Benchmarking Core Processes, and Benchmarking Outside the Box bring you firsthand commentary from senior executives, industry experts, and front-line personnel in a fast-paced documentary style that generates interest, understanding, and enthusiasm for these important ideas. These videos will stimulate discussion and provide guidelines to help you develop an action plan for your organization.

May I send you Benchmarking for a free, no-obligation trial? Simply reply to this e-mail with the word "Yes" in the subject line and we'll send you the program to try with our compliments. We'll send you this innovative series right away. After 14 days, we will mail you an invoice for \$1190 (a savings of \$595 versus the individual video price of \$595 each).

If you are not completely satisfied with Benchmarking simply return it to us. You will owe nothing. Why wait to learn how successful change management can dramatically enhance your organization's performance?

Sincerely,

Laura Winig
